☞ TIME ☞

Late 1980s.

☞ STORY ☞

Hollywood-wannabe Star, the ultimate Beatles fan, has her path stymied by cystic fibrosis, an inherited disease that assures a young death. She spends most of her time in the hospital, where she confronts fate with imagination by surrounding herself with MTV-inspired bodyguard Flunkies and "morphing" her therapy nurse into a pro-wrestler. Then, Star gets a new roommate, Courtney, who is Star's opposite- a pretty cheerleader who apparently is not very sick. Neither girl knows much about the other's world, but eventually come to understand each other, and ultimately, themselves.
